Profile

Frontend Developer specialized in building high-performance, responsive web applications using React and Angular, with strong focus on UI/UX and modern frontend tooling. Proven track record building scalable, high-performance web and cross-platform mobile applications across commercial projects. Strong expertise in React ecosystem, component-based architecture, RESTful API integration, and UI/UX optimization. Experienced in Agile/Scrum environments with proficiency in version control, CI/CD workflows, and OOP design patterns.

Skills

- **Core Languages** : JavaScript (ES5/ES6+), TypeScript, HTML5, CSS3.
- **Frameworks & Libraries** : React, React Native, Next.js, Angular.
- **State Management** : Zustand, Tanstack Query, RxJS
- **Styling / CSS Architecture** : Tailwind CSS, Bootstrap, CSS Modules, ShadCN UI, Framer Motion, GSAP, Three.js
- **Backend / APIs** : Node.js, Express, Fastify, Spring Boot, RESTful APIs, PostgreSQL, MongoDB.
- **Testing & Quality** : Postman, code maintainability & testability focus.
- **DevOps & Tools** : Git, Docker (containerization), CI/CD pipelines, Android Studio, VS Code
- **Design Tools** : Figma, Adobe XD, Framer, Webflow, Adobe Illustrator, Canva.
- **Cloud & Other** : AWS (exposure), Agile/Scrum, OOP, Design Patterns, Software Architecture.
- **Tools**: Git, npm, Yarn, Vite, pnpm, Webpack.
- Strong focus on UI/UX, accessibility, and responsive design.

Professional Experience

- | | |
|---|---|
| Full Stack Software Developer, Hippomed AI | 05/2025 – 10/2025
Tunis, Tunisia |
| <ul style="list-style-type: none">• Developed scalable, component-based UIs using Angular and RxJS for state management across cross-functional projects.• Built and consumed RESTful APIs with Spring Boot, implementing JWT authentication and role-based access control (RBAC).• Delivered hybrid mobile applications for iOS and Android using Ionic Framework with Angular and native plugins.• Developed internal admin tools and dashboards using Django, focusing on structured database models and server-rendered views.• Maintained code quality through Git version control workflows and validated API integrations using Postman. | |
| Intern Full Stack Web Developer, Wowsoft | 07/2024 – 08/2024
Tataouine, Tunisia |
| <ul style="list-style-type: none">• Built full-stack applications using Next.js, Fastify, PostgreSQL, TypeScript, and Prisma ORM.• Implemented SSR (Server-Side Rendering), REST APIs, and efficient database schemas optimized for performance and scalability.• Ensured type-safe, maintainable architectures following best practices and clean code principles. | |

Projects

Skilline, *Gamified Educational Web App*

01/2025 – 02/2025

- Built a full-stack gamified learning platform with ReactJS, TypeScript, and Gemini API, featuring flashcard creation, spaced-repetition learning flows, and progress tracking.
- Implemented responsive UI/UX with Tailwind CSS, ShadCN UI, and Framer Motion animations; added leaderboards and social interactivity.
- Designed and consumed RESTful APIs with Express and Express-FileUpload for content management.

Prestige Deco, *Furniture E-commerce Platform*

01/2025 – 02/2025

- Developed a full-stack e-commerce app with Next.js and TypeScript, featuring SSR, category filtering, product pages, and persistent shopping cart.
- Integrated RESTful APIs for product management using Express, MongoDB, and Mongoose; optimized for performance across devices.

Task Vortex, *Collaboration Platform (In Progress)*

- Built a real-time collaboration platform with drag-and-drop task boards and live updates via WebSockets using React and NestJS.
- Achieved **40% faster API response times** via Redis + TanStack Query caching layers and Nginx load balancing.
- Containerized the full stack with Docker for consistent environments and horizontal scalability.

Tech: React, TypeScript, TanStack Query, Zod, ShadCN UI, NestJS, BullMQ, Redis, Docker, Nginx, WebSockets

Education

Full stack software development, *Coding Dojo*

12/2024 – 05/2025

Full-stack development covering MERN, MEAN, Spring Boot, and Flask; RESTful APIs and authentication.

Ariana Tunisia

Diploma in Thermal Engineering & Renewable Energies,

09/2019 – 06/2022

Higher Institute of Technological Studies

Tataouine, Tunisia

Specialized in sustainable energy systems, thermodynamics, and energy efficiency. Applied knowledge through practical projects focused on green tech solutions

Languages

Arabic, English, French

Certificates

Responsive web design

Developed mobile-friendly, accessible websites using HTML5, CSS3, Flexbox, and Grid, ensuring responsive UI/UX across devices

Backend development

Built RESTful APIs with Node.js and Express, managing data via MongoDB/Mongoose and implementing authentication, routing, and CRUD operations.

Mobile development

Developed cross-platform mobile apps with React Native for iOS and Android, optimizing performance and UI/UX, and integrating APIs with Redux for state management.
